

Nguyen Thi Anh Phung

Aspiring SDET | Fullstack Developer (TypeScript & React)

ABOUT

A highly meticulous IT student with a strong foundation in Fullstack Development (TypeScript, React, SQL). I possess the rigorous precision of a Quality Engineer and a deep passion for building high-performance, bug-free applications. I am a self-driven learner, committed to identifying complex logic flaws and ensuring seamless user experiences. Seeking an SDET opportunity at NAB to contribute my technical skills and 'quality-first' mindset.

SKILLS

Professional	Personal
Tailwind Css	Edge-case Analysis
TypeScript	Management
SQL (Advanced)	Critical Thinking
React.js	Problem Solving
Node.js	High Attention to
API Testing	Detail
Agile /Scrum	

TECHNICAL PROJECTS

Weather Cast | Next.js, TypeScript, Tailwind, OpenWeather API

- Built a real-time weather web featuring a modern Glassmorphism UI with dynamic visual effects
- Optimized for all devices (Mobile/Desktop) using Tailwind's responsive breakpoints
- Integrated OpenWeather API with secure Environment Variable handling on Vercel
- Established CI/ CD via Github and Vercel for automated, high-quality deployments.

CONTACT

-  <https://github.com/AnhPhung12>
-  +84 926675245
-  anhphung26122005@gmail.com
-  Thanh My Loi ward, Thu Duc district, Ho Chi Minh city

EDUCATION

- University of Greenwich (Vietnam) | 2023 – Present
- Bachelor of Computing (Expected 2027)
- Relevant Coursework: Database Design, Software Quality Assurance, Web Development, System Analysis & Design

LANGUAGE

- English - Fluent in Technical communication
- Vietnamese - Native

Currency Tracker | Python, Requests, JSON, API Testing

- Developed a Python tool to track real-time exchange rates via financial APIs
- Parsed JSON data and implemented Exception Handling to ensure data integrity and stability
- Designed a modular architecture for easy maintenance and scalability of currency pairs
